5					
6					
7					
8					
9					
Example	922	922	930	$930 - 922 = 8$	$8/922 = .008676$ or 0.87%
*On the half page headed, 3, Certificate of Election Inspectors, there are boxes that show the number of voters and of ballots tabulated.					
Enter the number of Applications you have counted. *It is OK to leave this box empty, but if you want to do the calculation, enter the difference between your count and the number of ballots reported tabulated. ****To calculate the % discrepancy, divide the discrepancy by the number of ballots reported tabulated and express the result as a as a percentage (e.g. $930-922=8$ $8/922=.008676$ or 0.87%).					
Please use the back of this Audit Report to write comments or additional findings.
